German Precision Optics Named Official Optics of the Archery Shooters Association

RICHMOND, Va. (Jan. 9, 2020) — German Precision Optics (GPO) USA, is pleased to announce that it has been named as the official optics of the Archery Shooters Association (ASA) for 2020. Created in 1993, and the world's premier 3D archery federation and tournament host, the ASA will kick off its 2020 season February 20-23 in Foley, Ala.

“We have been a supporter of the ASA for the past three years and have seen the growth in its popularity,” said Mike Jensen, president & CEO of GPO USA. “This is an amazing opportunity for both GPO and ASA.

“As a leader in the engineering, design and development of premium binoculars, our binoculars are the perfect match for 3-D shooters and archers alike. We look forward to a great relationship with ASA, its shooters and a stronger presence at all the tournaments in 2020,” concluded Jensen.

Each ASA tournament consists of a course with 20 3-D animal targets. Each animal has scoring in rings which are worth 14,12, 10 or eight points. Depending on the class of competition, the targets can be set at a designated distance or at unknown yardages. Shooters can use binoculars to view the targets but cannot use any devices that give them distances.

GPO will have a booth showcasing its newest products and will offer special pricing on select products at the ASA tournaments. Be sure to stop by and see what is new.
