German Precision Optics (GPO) USA Rangefinders Capture Gray's Best Awards

RICHMOND, Va. (Jan. 14, 2021) — For the first time in the history of *Gray's Sporting Journal* Gray's Best Awards, German Precision Optics received two awards in the same category for its RangeTracker 1800 Rangefinder and its RangeGuide 10x50 Binocular.

"German Precision Optics warrants it because its RangeTracker and RangeGuide binocular are so good, we couldn't decide between them. Finally, we chose both," wrote Gray's Terry Wieland.

He writes about the RangeTracker, "Meet the newest rangefinder from German Precision Optics – the RangeTracker 1800 (\$400). It fits in a pocket, weighs next to nothing, and is easy to use. If you want them- it offers sophisticated features such as measuring angle up or down and giving 'true' range. Its 6x magnification and coated lenses make its images sharply designed, and its usable in low light (dawn and dusk) when the big guys usually appear. Its ranging capability is astonishing: From 6 to 1800 yards." [Click Here](#) or go to: <https://gpo-usa.com/product/ranetracker-1800/>

Equally impressed with the GPO RangeGuide 10x50 Binocular, Wieland writes, "It combines superb optical quality with usable magnification at a price that does not cause nosebleeds. Its handy enough for backpacking in the mountains, and the magnesium body ensures durability. It has a 3,000-yard ranging capability and can do other things like measuring angles up or down, and ambient temperature (useful for longer shots), and a 'scan' mode that gives three readings a second. These features are there if you need them, but not obtrusive if you don't." [Click Here](#) or go to: <https://gpo-usa.com/product/rangeguide-10x50/>

Gray's Best awards are anticipated by longtime readers of *Gray's Sporting Journal* and coveted by hunting and angling manufacturers. The reason? Gray's Best carries the weight of authentic sincerity. Many sporting magazines publish an end-of-the-year roundup of new products. *Gray's* publishes a distinguished selection.

About GPO USA

German Precision Optics was founded on the premise that design, engineering and quality management is 100 percent controlled in Germany to its strictest standards, yet products can be produced at some of the largest production facilities worldwide. This unique corporate structure allows GPO to offer the highest quality products with better features at a significantly better price. The company is 100-percent confident that all its products will not only function perfectly but also exceed all expectations. Therefore, GPO USA has created an industry-leading Spectacular Lifetime Warranty™. With outstanding professional service, GPO USA will take care of its products before, during and after the purchase at no charge—EVER. Founded in 2016, GPO has its U.S. headquarters in Richmond, Va. For more information on GPO USA, visit www.gpo-usa.com or call 844-MY-BINOS (844-692-4667).
