German Precision Optics Introduces Optic-Fit Binocular Adapter System

RICHMOND, Va. (Nov. 16, 2020) — Being able to glass for extended periods of time is essential when hunting. To make this task easier, GPO is pleased to introduce its new Optic-Fit binocular and spotting scope tripod adapter system. Designed by outdoor enthusiasts who demand the highest quality optic-tripod mounting system for heavy and extreme use, this quick connect system will get your optic on and off a tripod with an inventive, durable and one of the fastest quick detach systems in the industry.

Made in the USA, this premium tripod adapter system is available through GPO authorized retailers nationwide. Its multi-part system is compatible with virtually all binocular and spotting scopes. The machined aluminum base is made of high-grade aircraft aluminum block components and assembled with steel Allen screws. It simply attaches to any tripod by using the ¼" x20" base plate on the tripod. The binocular post that attaches to and remains on the binocular threads into the hole on the front center hinge, located between the two binocular barrels. It is machined from high grade stainless steel and locks into place on the binocular with a standard stainless-steel hex bolt. After the quick detach post is connected to the binoculars, it attaches to the Optic-Fit base by sliding it through a machined hole in the base, which quickly and securely locks it into place.

By using a tripod adapter in the field you not only eliminate shaky imagery, but it enables you to relocate animals and landmarks quickly, lets you grid up the country with both eyes open, and physically gives your legs a break. It will change your way of hunting forever, and the new Optic-Fit is one of the most durable, easy-to-use binocular and spotting scope adapter system on the market. In fact, if you break it, we will replace it at no charge.

The Optic-Fit is available at retailers nationwide and conveniently online at www.gpo-usa.com. The complete system has a starting suggested retail price of \$79.99 for the base Optic-Fit model, \$99.99 for the Optic-Fit Pro model, and \$129.99 for the camera/spotting scope accessory mount.

About GPO USA

German Precision Optics was founded on the premise that design, engineering and quality management is 100-percent controlled in Germany to its strictest standards, yet products can be produced at some of the largest production facilities around the world. This unique corporate structure allows GPO to offer the highest quality products with better features at a significantly better price. The company is 100-percent confident that all of its products will not only function perfectly but will exceed all expectations. Therefore, GPO, USA has created an industry-leading Spectacular Lifetime Warranty™. With outstanding professional service, GPO USA will take care of its products before, during, and after the purchase at no charge, ever. Founded in 2016, GPO has its U.S. headquarters in Richmond, Va. For more information on GPO USA, visit www.gpo-usa.com or call 844-MY BINOS (844-692-4667).
